Eindhoven University of Technology

the 1st example presentation 2012
4th May 2012

Outline

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

Outline

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

Introduction

- This is just a short example
- The comments in the \LaTeX file are most important
- This is just the result after running `pdflatex`
- The style is based on the webpage
<http://www.tue.nl/>

Outline

- 1 Introduction
- 2 Background information**
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

Background information

Slides with \LaTeX

Beamer offers a lot of functions to create nice slides using \LaTeX .

The basis

This style uses the following default styles:

- split
- whale
- rounded
- orchid

Outline

- 1 Introduction
- 2 Background information
- 3 The important things**
- 4 Analysis of the work
- 5 Conclusion

The important things

- 1 This just shows the effect of the style
- 2 It is not a Beamer tutorial
- 3 Read the Beamer manual for more help
- 4 Contact me only concerning the style file

Outline

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work**
- 5 Conclusion

Analysis of the work

This style file gives your slides some nice TU/e branding. When you know how to work with the Beamer package it is easy to use. Just add:

```
\usepackage{tue}
```

at the top of your file.

Outline

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

Conclusion

- Easy to use
- Good results
